

# REMOTE WORKFORCE SOLUTION OVERVIEW

*A New Solution for the Future of Work*

As organizations look to the future, many aren't simply going back to the offices they left. Studies have shown that remote work approaches can save employers more than \$11,000 per year per employee with higher productivity and reduced operating costs.<sup>1</sup>

To enjoy those benefits, organizations must overcome challenges like unreliable internet or insecure connections, which may not previously have been a priority.

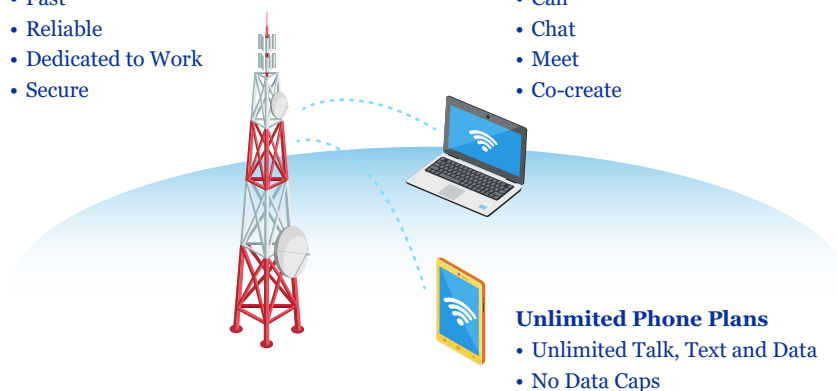

To make remote work a permanent success, it's time to better control these connections. UScellular's Remote Workforce Solution helps businesses like yours be flexible, productive and secure through fast, reliable internet connections dedicated to work, new collaboration tools and unlimited phone plans.

### Remote Workforce Internet

- Fast
- Reliable
- Dedicated to Work
- Secure
