

VIDEO TELEMATICS SOLUTIONS

Safeguard your fleet and drivers starting at just \$41/mo

Distracted driving and staged accident fraud is on the rise. Even the most well-trained drivers can fall victim to these dangerous situations.

AI-enabled video telematics solutions can reduce the risk of distracted driving and the liability and cost associated with potential fraud. These easy-to-use-and-in-install solutions rely on real-time, on-demand video and in-cabin voice coaching to increase driver safety and exonerate your business should the worst happen.

UScellular® Video Telematics Advantages

EASY PLUG & PLAY INSTALLATION

Most solutions self-install in minutes, eliminating the headache of assets out of service during prolonged installation.

FORWARD- AND DRIVER-FACING VIEWS

See the whole picture with front- and rear-facing 4k cameras to protect your business and drivers.

REMOTE CAMERA WAKE UP

Remotely activate a camera to view live feeds and ensure your drivers are active and vehicles are in appropriate locations.

REAL-TIME AUDIBLE IN-CABIN COACHING

Artificial intelligence and in-cabin voice coaching can alert distracted drivers, plus ensure drivers are wearing a seatbelt and not smoking in your vehicles.

SUSPECTED FRAUD

20%

Of claims in 2022 are suspected as fraudulent¹

STAGED CRASHES

#1

Insurance fraud scheme in 2021¹

TEXTING WHILE DRIVING

25%

Of all accidents are due to texting while driving²
